OG Suppressors Scorpion .22LR Named Thunderbeast Champion at 2025 TBAC Sound Summit

Shevlin, MN — January 2026 — *OG Suppressors* proudly announces that its **Scorpion .22LR suppressor** has been honored as the **2025 Thunderbeast Champion** in the .22 Long Rifle category at the prestigious TBAC Sound Summit, securing the **#1 rating for quietest .22 rimfire suppressor of the year**.

Engineered for precision performance and ultra-lightweight handling, the **Scorpion .22LR** sets a new benchmark in rimfire suppression technology. Utilizing advanced **3D metal printing and additive manufacturing**, this innovative suppressor delivers exceptional acoustic performance in a compact form factor. Finished in sleek black Cerakote and constructed from high-grade titanium, the Scorpion weighs just **1.95 ounces** and measures **5 inches in length**, making it one of the lightest and most efficient rimfire suppressors available.

Key Features

- **Thunderbeast Champion — #1 Rated .22LR Suppressor of 2025:** Recognized at the 2025 TBAC Sound Summit as the quietest .22 rimfire suppressor among top competitors.
- **Ultra-Lightweight Titanium Construction:** Precision 3D-printed titanium offers unmatched strength, durability, and thermal performance without excess weight.
- **Compact, High-Efficiency Design:** Direct thread mount and patented internal geometry deliver premium suppression for .22LR and compatible rimfire calibers up to 5.7x28mm.
- **No Disassembly Required:** Designed for simplicity — just clean with an ultrasonic or chemical solution as needed without user serviceable parts.
- **Lifetime Warranty Included:** Confidence backed by a full lifetime warranty from OG Suppressors.

“We are thrilled to have the **Scorpion .22LR** named a **Thunderbeast Champion** at the 2025 summit,” said OG Suppressors spokesperson. “This honor underscores our commitment to innovation, quality, and real-world performance for enthusiasts and professionals alike.”

The Scorpion .22LR is now shipping and available through OG Suppressors dealers nationwide. For more details, MSRP, and dealer locations, visit ogsuppressors.com/scorpion/.

OG Suppressors' Scorpius .22LR Earns Thunderbeast Champion Title at 2025 TBAC Sound Summit

Shevlin, MN — January 2026 — OG Suppressors announces that its **Scorpius .22LR suppressor** has been named the **2025 Thunderbeast Champion**, earning the **top overall ranking for sound suppression in the .22 LR category** at the highly respected **TBAC Sound Summit**. The recognition places Scorpius at the forefront of rimfire suppressor performance among leading industry competitors.

Designed and manufactured using advanced **3D-printed titanium construction**, the Scorpius .22LR delivers exceptional suppression in an ultra-compact, lightweight platform. Weighing just **1.95 ounces** and measuring **5 inches in length**, Scorpius sets a new standard for balance, handling, and durability in rimfire suppression.

The Thunderbeast Sound Summit is widely regarded as one of the most objective and data-driven suppressor evaluations in the industry. The Scorpius .22LR's top finish reinforces OG Suppressors' commitment to engineering innovation and measurable performance rather than marketing claims.

Industry Highlights

- **2025 Thunderbeast Champion** — Ranked #1 overall for .22LR sound suppression
- **Additively Manufactured Titanium** — Precision 3D-printed for strength, consistency, and weight reduction
- **Ultra-Lightweight Design** — Ideal for pistols and rifles without compromising balance
- **Direct-Thread Mount** — Simple, secure, and reliable attachment
- **Low-Maintenance Construction** — No disassembly required; optimized for ultrasonic or chemical cleaning
- **Caliber Compatibility** — Rated for .22LR and compatible rimfire platforms up to 5.7x28mm
- **Lifetime Warranty** — Backed by OG Suppressors' commitment to long-term reliability

“The Thunderbeast Champion designation validates the engineering approach behind Scorpius,” said a representative from OG Suppressors. “Our focus has always been real-world performance, and this recognition confirms that Scorpius delivers at the highest level in its class.”

The **Scorpius .22LR** is currently available through authorized OG Suppressors dealers nationwide. For product specifications, dealer information, or media inquiries, visit:
